

**Blueberry THP
4-11-008 CAL**

**PORKCHOP THP
4-11-014 CAL-2**

**Blueberry THP
4-11-008 CAL**

This THP is located entirely on the Gamet Hill 7.5 minute topo map.

Acres	Silviculture Methods	Symbol on Map
299	Clearcut	CC
33	Selection	S
19	Seed Tree Removal Step	STR
159	Fuelbreak	FB
510		

--- Approx. boundaries
 - - - USFS Land
 - - - Non-USFS/Non-SPI Land

Notes: Many minor watercourses flow into Blue Creek in the area of this timber harvest plan (THP). Therefore, narrow corridors of selection harvesting were used in developing the timber harvest plan. Three THP Units are located adjacent to Blue Creek. Selection harvesting is, again, adjacent to Blue Creek, with clearcutting planned directly upslope.

The west end of this THP begins 12 miles east of West Point and extends east another five miles. By comparison, the Porkchop THP is between 8.5 to 10.7 miles east of West Point. Travel on Winton Road if coming from the West Point direction.

If coming from the east, travel on 7N23 (Black Springs Road, = 2 miles above Cottage Springs). This road becomes dirt two miles from Hwy 4. Turn left about 6 miles in when 7N09 is reached. This road is mostly paved on the way down hill to the Cal Fire Station at the corner of 7N09 and Winton Road. Turn left at this intersection and go west about 1.3 miles to get to the eastern edge of the Blueberry THP location.
